AGRICULTURAL OUTILOOK

October 1986

Economic Research Service
United States Department of Agriculture

CONTENTS

Page	Table	
3	1	Gross national product and related data
5	2	Foreign economic growth, inflation, and export earnings
6	3	Indexes of prices received and paid by farmers, U.S. average
8	4	Prices received by farmers, U.S. average
9	5	Consumer Price Index for all urban consumers, U.S. average
10	6	Producer Price Indexes, U.S. average (not seasonally adjusted)
13	7	Farm-retail price spreads
15	8	Price indexes of food marketing costs
16	9	U.S. meats supply and use
21	10	U.S. egg supply and use
21	11	U.S. milk supply and use
22	12	Poultry and eggs
23	13	Dairy
24	14	Wool
25	15	Meat animals
27	16	Supply and utilization of crops
32	17	Wholesale prices
32	18	Fruit
33	19	Vegetables
33	20	Other commodities
34	21	World supply and utilization of major crops, livestock & products
35	22	Prices of principal U.S. agricultural trade products
36	23	Indexes of nominal and real trade-weighted dollar exchange rates
37	24	Trade balance
37	25	U.S. agricultural exports and imports
39	26	U.S. agricultural exports by regions
40	27	Farm income statistics
42	28	Cash receipts from farming
43	29	Cash receipts from farm marketings, by States
49	30	Rail rates; grain and fruit-vegetable shipments
50	31	Indexes of farm production input use & productivity

Yearbook Coordinator
Ann Duncan (202) 786-3313
Data Base Managers
Evelyn Blazer and Anne Rogers (202) 786-3313
Systems Analyst
Ken King (202) 786-1602
Computer Programmer
Tammy Roberts (202) 786-1602

Per capita consumption of major food commodities (retail weight)

Per capita food consumption indexes (1967=100)

The Agricultural Outlook Yearbook contains annual data for variables published monthly in Agricultural Outlook. These data were assembled as part of an ongoing effort by ERS to automate its data base using the ARIES system. The tables contained here reflect

revisions to data through mid-August. The next Yearbook is scheduled for publication in February 1987. Yearbook data can be accessed electronically. For details, call (202) 447-5163.

I/ Relail costs are based on indexes of retail prices for domastically produced farm foods from the CPI-U published monthly by the Sureau of Labor Statistics. The farm value is the payment to farmers for quantity of farm product squivalent to retail unit. less allowance for byproduct. Farm values are based on prices at first point of sale and may include marketing charges such as preding and packing for one commodities. The farm-retail spread, the difference between the Petail price and the farm value, represents charges for essembling. Processing, transporting, and distributing these foods, 2/ Estimated weighted everage price of retail cuts from pork and yield grace 3 beef carcasses. Retail cut prices from pork and yield grace 3 beef carcasses. Retail cut prices from 8LS. 3/ Value of Carcass Quantity equivalent to 1 %, of retail cuts beef edjusted for value of fat and bone byproducts. 4/ Market value to producer for Quantity of live animal equivalent to 1 %, of retail cuts minus value of byproducts. 5/ Represents charges for retailing and other marketing services such as fabricating, wholesaling, and in-City transportation.

1/ Nominal values are Percentage Changes in currency units per dollar, weighted by Proportion of agricultural exports from the United States. An increase indicates that the dollar has appreciated. Real values are computed in the same way as the nominal series, edjusted for CPI changes in the countries involved.
